Published November 19, 2020. And one of the most attractive computers out there is macbooks. These sleek transportable computers allow you to work anywhere at any time and provide a lot of functionality for your users. But sometimes it's not enough. In many cases, you are looking for more. While you could go for some productivity apps, there are actually many macbook accessories available that will make your life easier in many ways. These extra accessories will allow your macbook to charge faster, store more data, or keep it safe and protected while traveling around. Aside from that, there is a wide range of accessories to choose from from many companies jumped on the bandwagon supply of macbook users. Below we have listed some of the greatest macbook accessories that will benefit your computer. What makes for great Macbook accessories? Before we get on the list, we'd like to go to the criteria of what makes for great Macbook accessories. The items we have chosen from this list will have the following criteria. at a reasonable price - Accessories alone should not break the bank compared to the large initial macbook investments. Convenience - All of these accessories are practical in different situations, however, they also have additional features that make them useful in several situations beyond their obvious features. Compact - The workflow is also about space in most cases. So all that too bulky doesn't help much. These accessories are either large for the purpose - for storing other items - or beautifully and compactly so they won't put on the way. USB drive for quick storage of files without access to the cloud While you can always access the cloud at any time, sometimes availability can be cumbersome or time consuming. Instead of trying to access files this way, getting a USB flash drive can save you a lot of time. Especially if your work entails presentations. SanDisk Ultra Dual Drive is great because it offers USB-C and USB-A connectors that allow you to connect to almost any device and transfer files and more between computers. In addition, USB drives boast several hundred gigabytes these days making them solid storage devices. Buy the SanDisk Ultra Dual Drive here.Compact charger that does more than the ChargeYour charger that comes with the MacBook is a good option for the charger, but these days chargers can offer a lot more. This can help you speed up your workflow as you can charge other devices or use the charger for purposes other than charging. In the case of the charger PowerPort is more compact than the default charger. It also offers another USB-C connector allowing you to quickly charge another gadget with it. Buy an Anker PowerPort charger here. The port adapter for those with multiple DevicesOne stiff restrictions with a macbook is that it only has two USB-C ports. It's manageable for people with fewer gadgets, but You are someone who has a few, it can interrupt the workflow if you need a specific device and you can not charge it or access it. In this situation, the port adapter from Satechi can help. It offers multiple USB-C ports that allow you to use multiple devices. It can also help in arranging cords that we know can disrupt the work. If USB-C ports are not enough, it also comes with an SD card reader and an Ethernet cable port. Buy the Satechi Multi-Port Adapter here. A USB cable that is not intrusive or cumbersome to useThe USB-C cable that comes with Macbooks is small and is used to see what you're doingdust, particles and stains should be expected on laptop screens after a while. While you can get around these, sometimes they can hide your vision at times. The same can apply to all devices these days. The only problem with many solutions on the market is that they can damage screens. Fortunately, we found a screen cleaning solution that doesn't harm the screens. ScreenDr Professional screen cleaning kit comes with a spray that is safe for screens and antimicrobial microfiber fabric to make sure you make the most of the spray. Buy ScreenDr Professional Screen Cleaning Kit here. A card reader who speeds up the time of photo transferify you are looking for a standalone card reader for your work, getting a device designed to send photos and read is essential. One of the best Macbook accessories in this category we found was a vanja card reader. This one can read SD and MicroSD cards, as well as transfer photos to your computer with ease thanks to its USB-C and USB 2.0 port options. It's also small making it easy to carry around and cheap to buy, making it a great choice to pick up if you're dealing with lots of photos. Buy Vanja Card Reader here. Protective sleeves to protect your laptop from HarmFor to those who travel the last thing you want is your laptop to get damaged for any reason. Even if you're unlikely to give it up as often as your phone, having a sleeve for your laptop to be in can save you time. One sleeve that we found interesting was the Native Union sleeves. They are made of tear-resistant material with authentic leather accents. Its interior is soft as well as preventing scratches from your laptop. It also offers a pocket area where you can store cables and other macbook accessories easily. Buy a laptop The native Union is here. Car charger to charge on GoFor man is always driving around, car charger is always a useful tool to have when you are on the go. One of Anker's is particularly useful in a number of ways. Not only can it charge your macbook, but it also has an extra port port to charge your phone if necessary. It's not the fastest charger out there compared to the Macbook Pro adapter, but it's the highest on the market with a 30 watt output. By comparison, the second-fastest charging connector provides 18 W. Aside from that the charger has a lighted LED ring for you to see it and connectors late at night. It also has a feature that ensures that devices do not experience jumps or overheating from the charger itself. Buy an Anker PowerDrive car charger here. USB-C for USB-A Adapter provides access to old modelsIf your old macbook still works, but there are files that you want you not to back up that you want it makes it easier to access them. It also allows you to access devices that only have USB-A slots. This can save you a lot of time if you switch between old and new devices. Buy thunderbolt adapter here. Hardshell Case for added ProtectionA sleeve is good for travel, but when you use it, having an extra layer of protection can be good. Aside from this, this shell casing can also serve as an additional protection against scratches and bumps too. Buy the Incase Textured Hardshell case here. An alternative sleeve for those with tighter budgets but want protection If you're looking for a matching laptop sleeve but don't want to spend too much, AmazonBasics brands are a good alternative. Their sleeves are elegant and still offer good scratch protection as well. It also has a few pockets for small essentials too. Buy an AmazonBasics laptop sleeve here. A hub that accommodates multiple ports at once We have already mentioned the port before the huge time savers thanks to it having different ports for different devices. This is one great alternative as while it doesn't offer as many USB-C ports, it offers more variety. Paired with a design of the same color as the MacBook Air, it offers two USB-C connectors, two USB 3.0 ports, an HDMI and SD port, and microSD card readers. Buy the Satechi Type C Pro Hub here. Headphones to deal with fewer CordsCords headphones are a common problem when improving performance on the table and one way to mitigate them is to switch wireless. If you think about it, one option to consider is Soundcore headphones. They are cheaper than Apple's traditional AirPods, which can save money. They also provide great sound and are connected via Bluetooth. The beauty of these headphones is they can also undo the sound even though they are so compact. They also offer touch control that allows you to pause, play, skip music and answer calls. Buy Soundcore Wireless Headphones here. Desktop Stand Save SpaceDesk is another important part of performance as things can interfere and hinder your work. Where you don't need a laptop at the moment, having a booth where you can put it aside can be helpful. In such situations, we recommend the Twelve Southern Book Arc. This neat macbook accessory can save you a ton of space because it requires you to close close laptop in order to insert it into the stand. It also keeps it elevated from the surface, which could protect it from spills at the South BookArc desk stand here. Comfortable and easy to use mouse for faster working speedThe latest of the Macbook accessories we'll be talking about is a proper mouse. Logitech offers fantastic mice and their Logitech MX Master 3 is one of the greatest wireless mice out there. It's an ergonomic design, customizable buttons and insanely accurate movement is fantastic. It also comes with a scroll wheel for accurate scrolling. Battery power can last for months between charges and, like all Logitech devices, it comes with a USB-C connector for charging. Buy the Logitech MX Master 3 Wireless Mouse here. Bottom line there are a lot of Macbook accessories out there to improve your workflow. Taking the time to do research and invest in some of the best, though will save you a lot of time, money and energy in the long run. At the same time, all of these accessories can help you with specific needs for what you do. Credit Photo: Victor Ritsvall via unsplash.com unsplash.com
